

BLACKHAWK SQUADRON

COORDINATED TACTICAL MOVEMENT

After revealing an Order Marker on this card and instead of moving normally, you may move up to three figures you control. At least one of these figures must be a Blackhawk Squadron pilot.

AIRSTRIKE SPOTTER SPECIAL ATTACK

Range Special. Attack 5.

For each Blackhawk Squadron pilot you control, you may choose one unengaged Unique figure you control within 8 straight line spaces of that pilot. All figures occupying spaces in those straight lines between the chosen figures and the pilots are affected by this special attack. Roll 5 attack dice once for all affected figures. Each figure is only affected once, never receives height advantage, and rolls defense dice separately. No Blackhawk Squadron pilot can attack normally in the same turn that at least one pilot attacked with this special attack.

STRATEGIC RETREAT

Blackhawk Squadron pilots do not take leaving engagement attacks from figures that are engaged with one or more other figures.
