

OCEAN MASTER

ORM MARIUS

SORCERY OF NERON

Start the game with the Glyph of Mystic Ocean Trident on this card. While equipped with the Glyph of Mystic Ocean Trident, Ocean Master may cast Spells as if he had the Magical Defense special power.

DEEP SEA ROYALTY

If Aquaman is not in your army, Ocean Master is considered to have the class of King in addition to what is listed on this card. Ocean Master does not stop his movement when entering water spaces. Add 2 to Ocean Master's attack, defense, and range while he is on a water space.

RISING TIDE

Once per round, after revealing an Order Marker on this card and instead of attacking with Ocean Master, you may place one blue Tide Marker on this card, to a maximum of 6 Tide Markers. At the start of each round, count the number of Tide Markers on this card. If there is at least one Tide Marker on this card, then for the entire round, all spaces on the battlefield on level X or lower are considered water spaces instead of their normal terrain types. X is the number of markers counted.
