All other figures you control
subtract 1 from their Attack
numbers. After revealing an Order
Marker on this card and instead of
taking a turn with Octus, if there is
only one Order Marker on this card,
you may take a turn with one other
Hero you control that is Common or
Unique and one Squad you control
that is Common or Unique. You may
choose which unit to activate first
and you may not take additional
turns with any other figures.
