

## SPIDER-BOTS

### SURVEILLANCE WEB

Before rolling for initiative you may either:

- add 2 to your initiative roll for each Spider-Bot you control within 5 clear sight spaces of an opponent's figure; or
- choose a figure within 5 clear sight spaces of a Spider-Bot. That figure's controller cannot add to their initiative roll this round.

### SPIDER-VERSE: DRONES

Once per player turn, before taking a turn with another figure you control that has a Spider-Verse, Swing Line or Web Swing special power, you may move the Spider-Bots.

### RECONNAISSANCE MODE

Spider-Bots may ignore their height when climbing, move through all figures and never take leaving engagement attacks. Spider-Bots cannot be targeted for attacks from non-adjacent figures and may not attack or make leaving engagement attacks.
