

SUPER-MAN

KONG KENAN

BALANCED KRYPTONIAN QI

Super-Man has the species of Kryptonian in addition to what is listed on this card. When rolling defense dice for Super-Man, unless the attacking figure rolled more blanks than Super-Man, the most wounds he can receive is 1.

ALL-YIN FOCUS

Before you move Super-Man, you may activate All-Yin Focus. For the rest of this movement, Super-Man is not attacked when leaving an engagement and can move through all figures, Fortress Walls, and obstacles. When Super-Man attacks a figure he moved through this turn with a normal attack, you may subtract 1 shield from the defending figure's roll.

ALL-YANG FOCUS

After rolling attack dice for Super-Man's normal attack, if he did not use All-Yin Focus this turn, you may choose a different adjacent figure for each blank rolled. Each chosen figure receives one wound.
