

SUPERMAN

KAL-L

FASTER THAN A SPEEDING BULLET

Instead of attacking with Superman, you may move him 4 additional spaces. If you do, he will not take any leaving engagement attacks.

MORE POWERFUL THAN A LOCOMOTIVE

When Superman attacks an adjacent figure with his normal attack, all blanks rolled count as extra skulls. When he rolls defense against a normal attack, all blanks rolled count as extra shields.

LEAP TALL BUILDINGS IN A SINGLE BOUND

Before moving normally, you may choose to subtract 4 from Superman's Move number. If you do, at any point before, during, or after moving, Superman may move up to 4 spaces with Leap. When moving with Leap, Superman has the Flying special power, but may not move up or down more than 80 levels in a single leap, and will not take any leaving engagement attacks.
