**TOXIN**

PATRICK MULLIGAN

**SYMBIOTE TRACKING 3**

Instead of his normal move, Toxin may move up to 3 spaces with Symbiote Tracking. When moving with Symbiote Tracking, Toxin has the Flying special power, but may not move up or down more than 40 levels in a single move, and will not take any leaving engagement attacks. After using Symbiote Tracking, you may use it two additional times. If you use it three times in one turn, Toxin cannot attack this turn.

**TOXIC SYMBIOSIS 3**

After moving and before attacking with Toxin, you may roll up to 3 combat dice. For each:

- skull rolled, add 1 to Toxin's Attack number for this turn.
- shield rolled, subtract 1 from Toxin's Attack number for this turn.
- blank rolled, Toxin may attack one additional time this turn.
