COOPERATIVE ATTACK PLAN

Before a figure you control attacks, if the defending figure has been attacked by another figure you control this player turn, you may reveal an "X" Order Marker on this card. If you do, the defending figure subtracts a shield from whatever is rolled when defending against that attack.

**PSYCHOKINETIC SHIELD BLAST
SPECIAL ATTACK**

Range 5. Attack 4.

After a figure that is not huge rolls defense dice against this special attack, you may place it on an empty space up to X spaces away from its current placement, where X is the number of shields you rolled for this attack. Figures moved by this special attack will not take any leaving engagement attacks. After attacking with this special attack, if Vance Astro is unengaged, he may attack 1 additional time and cannot attack the same figure more than once.
