AMULET OF TARANTUAL

(WALL CRAWLING)

**ARTIFACT
EQUIPMENT GLYPH**

When moving up levels of terrain with this figure, you may ignore this figure's height and only count one space for every two levels climbed. While this figure is adjacent to any figure, obstacle or terrain with a height of 9 or greater, this figure is considered to be 9 levels higher than their base for the purpose of determining height advantage against non-flying figures.
