

MARVEL

TORNADO
(FIGURE DISPLACEMENT)

**WEATHER
PERMANENT GLYPH**

Any time a numbered Order Marker is revealed on any Army Card, or when this glyph is first placed onto the battlefield, each player must immediately roll the 20-sided die for each non-huge figure that player controls that is on or within 1 space of this glyph, even if this glyph is unoccupied. If a player rolls 6 or lower, the opponent to their left must place that figure on any empty space exactly 2 spaces away from this glyph, then the opponent to their right may place the figure up to an additional 2 spaces away. A placed figure never takes any leaving engagement attacks, cannot be placed closer to this glyph than its original placement, and will receive any falling damage that may apply.

After the figure is placed, if it does not have the Super Strength special power, it receives one wound.
