

ROGUES REVOLUTION

BACK IN A FLASH

After a Speedster you control destroys an opponent's Unique Rogue Hero, you may immediately place that Speedster on an empty space in your start zone. If you do, remove a Wound Marker from its Army Card. Back In A Flash may not be used by the same figure more than once per round.

RAPID ROTATION

Before a Speedster you control moves normally or with the Speed Dodge special power, you may choose an opponent's figure adjacent to that figure, or two figures if one of them is a Rogue Hero. Immediately place the chosen figures up to two spaces from their original placement. Placed figures will not take leaving engagement attacks but will take any falling damage that applies.

SPEED FORCE CONNECTION

Once per round, after revealing a numbered Order Marker and before taking a turn with a figure you control, you may reveal an "X" Order Marker on a Speedster you control to take an immediate turn with any Speedster you control. You may not take additional turns with figures you control after using Speed Force Connection.
