CONFLICT CHERNOBYL BATTLEFIELD

Required Sets:

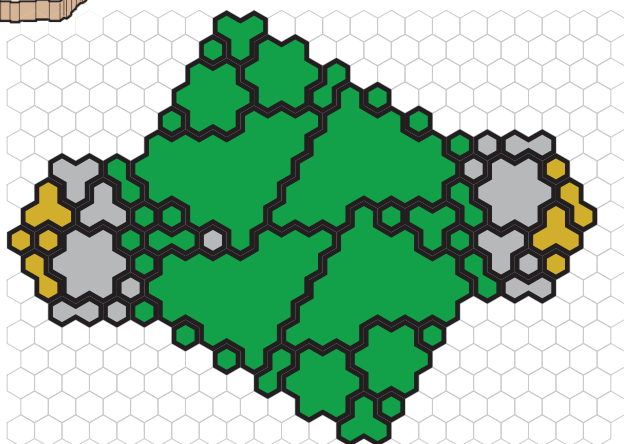

Rise of the Valkyrie™ Master Set, Road through the Forgotten Forest™, Marvel The Conflict Begins™ Master Set, Ticalla Jungle Set™

In 1986 a nuclear plant accident in the Ukraine forced the people of Chernobyl to abandon their city, with the radioactive fall out ensuring no one would want to return. Father Time and Mother Nature then began the slow process of reclaiming this land. Seeds fell into sidewalk cracks as trees, bushes, and grass spread across the urban landscape. Buildings crumbled. The sewers' drainage system was eventually plugged and new pools of deep water formed throughout the city. The city would not remain unoccupied forever though. These days, it's the cacophony of battle that haunts the shadows and ghosts of this once abandoned city.
